Handbook Purpose

The purpose of the Special Programs handbook is to provide an overview of all Special Programs at Fort Worth Academy of Fine Arts (FWAFA). Each program follows all policies required by the Texas Education Agency, and therefore, some sections of this handbook are directly quoted from the TEA website. Some of the information presented in this handbook may also be found in the FWAFA Student Handbook.

FWAFA Mission

Our mission is to inspire in artistically talented students, a lifelong passion for learning, empowering them to achieve academic and artistic excellence.

Family Education Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) is a Federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education.

FERPA gives parents certain rights with respect to their children's education records. These rights transfer to the student when he or she reaches the age of 18 or attends a school beyond the high school level. Students to whom the rights have transferred are "eligible students."

- Parents or eligible students have the right to inspect and review the student's education records maintained by the school. Schools are not required to provide copies of records unless, for reasons such as great distance, it is impossible for parents or eligible students to review the records. Schools may charge a fee for copies.
- Parents or eligible students have the right to request that a school correct record which they believe to be inaccurate or misleading. If the school decides not to amend the record, the parent or eligible student then has the right to a formal hearing. After the hearing, if the school still decides not to amend the record, the parent or eligible student has the right to place a statement with the record setting forth his or her view about the contested information.
- Generally, schools must have written permission from the parent or eligible student in order to release any information from a student's education record. However, FERPA allows schools to disclose those records, without consent, to the following parties or under the following conditions (34 CFR § 99.31):
 - School officials with legitimate educational interest;
 - Other schools to which a student is transferring;
 - Specified officials for audit or evaluation purposes;
 - Appropriate parties in connection with financial aid to a student;
 - Organizations conducting certain studies for or on behalf of the school;
 - Accrediting organizations;
 - To comply with a judicial order or lawfully issued subpoena;
 - Appropriate officials in cases of health and safety emergencies; and

- State and local authorities, within a juvenile justice system, pursuant to specific State law.

Schools may disclose, without consent, "directory" information such as a student's name, address, telephone number, date and place of birth, honors and awards, and dates of attendance. However, schools must tell parents and eligible students about directory information and allow parents and eligible students a reasonable amount of time to request that the school not disclose directory information about them. Schools must notify parents and eligible students annually of their rights under FERPA. The actual means of notification (special letter, inclusion in a PTA bulletin, student handbook, or newspaper article) is left to the discretion of each school.

Counseling Services

FWAFA provides a comprehensive counseling program in accordance with the Texas Education Agency (TEA). The services provided by the School Counselor assist all students to grow to their full potential academically, socially, and emotionally. The counselor's mission is to foster emotional awareness and growth in artistically talented students to nurture the "whole" child.

The School Counselor may work with the grade-level teacher(s) to develop a plan of success for students struggling to meet academic or behavioral expectations. The School Counselor will also meet with students and parents as they prepare for the transition from elementary to middle and high school..

The school counselor may provide guidance lessons, teaching skills that develop self-confidence, responsible behavior, problem solving, decision making, interpersonal communication, goal setting, and motivation. A student wishing to speak to the School Counselor individually during the school day should notify their teacher. Guardians may also request an individual counseling service for their child by emailing the School Counselor or calling the front office.

Multi-Tiered Systems of Supports (MTSS)

MTSS is a framework that helps educators provide academic and behavioral strategies for students with various needs. Within this framework, several programs work together to best serve every student. Data-based problem solving is used to take a comprehensive approach to educating the whole child by making systematic improvements across the campus.

To best serve students through consistency of scheduling, services, providers, and resources, all General Education and Special Programs work closely with the MTSS framework at FWAFA:

- Positive Behavioral Interventions and Supports (PBIS)
- Social Emotional Learning (SEL)
- Response to Intervention (RTI)
- Gifted and Talented Education (GT)
- English as a Second Language (ESL)
- Special Education (SPED)
- Section 504 (504)

MTSS is a proactive approach including the following elements:

- Beginning, middle, and end of year progress monitoring for all students

- Ongoing informal monitoring of students' progress
- Increasing levels of targeted support for struggling students
- Classroom extension opportunities for gifted students
- Integrated plans that address students' academic, behavioral, social, and emotional needs
- A schoolwide approach to student support, with teachers, counselors, administrators, and other specialists working as a team to assess students and plan interventions
- Professional development so staff can provide effective interventions
- The use of evidence-based strategies at every tier of support

Positive Behavioral Interventions and Supports (PBIS)

PBIS is an evidence-based, positive approach used to improve school safety and promote positive behavior. Within its three-tiered framework, PBIS integrates all of the campus systems, data, and procedures for academic, social, and emotional growth. Tier 1 establishes a foundation of continuous, proactive support, with a focus of preventing unwanted behaviors. Tier 2 focuses more on students who are at risk for developing more serious issues. Lastly, Tier 3 provides students with more intense, individualized support to improve their behavior and/or academic performance.

As part of PBIS, FWAFA uses the acronym PROUD, which defines our school's core values and our student expectations.

FWAFA Student and Behavior Characteristics:

- P - Present professional work, behavior, and dress.
- R - Respect self, others, our facility, and our resources.
- O - Observe and listen attentively.
- U - Uphold integrity and kindness.
- D - Deliver my best for arts and academics.

Social Emotional Learning (SEL)

Social Emotional Learning is the process through which students learn and apply the social and emotional skills needed to develop a positive self-image, manage their emotions, show empathy and compassion for others, create and maintain healthy relationships with others.

FWAFA utilizes a Responsive Classroom framework, which is a student-centered, social and emotional learning approach to teaching and discipline. It is comprised of a set of research, and evidence-based practices designed to create safe, joyful, and engaging classrooms and school communities for both students and teachers.

Response to Intervention (RTI)

For students having difficulty in the regular classroom, all school districts and open enrollment charter schools must consider tutorial, compensatory, and other academic or behavior support services that are available to all students, including a process based on Response to Intervention (RTI) through a Student Support Team. The implementation of RTI has the potential to have a positive impact on the ability of districts and charter schools to meet the needs of all struggling students.

Response to Intervention (RTI) is a proactive approach to help all students. It is most often used for struggling learners and may also be used to improve student behavior. Students are provided with interventions at increasing levels of intensity to meet their needs and progress is closely monitored by their classroom teacher(s) and the Student Support Team. The amount of time each student spends in RTI varies as each approach is personalized. The ultimate goal is student success, and the Student Support Team will work with other educational professionals as needed to provide additional testing and/or support.

Gifted and Talented Program (GT)

Our Philosophy and Program

FWAFA serves gifted and talented students in both artistic and academic areas.

Talented Students

Students who enter FWAFA through the audition process are identified and served as artistically talented students. Through the arts, students are able to explore creativity and performance, as well as have an opportunity to respond and connect to professional and student works.

All the instructional staff at FWAFA have completed 30 or more clock hours of Professional Development on instructing Gifted and Talented Students. Topics include the following:

- Nature and Needs of Gifted and Talented Students
- Identification and Assessment of Gifted and Talented Students
- Models of Differentiated Instruction
- Creativity and Critical Thinking
- Engaging Gifted Students by Adding Depth and Complexity

English Learners

A student identified as an English Learner (EL), or Emergent Bilingual (EB), may have services provided through the school. Students will enter the program and continue to demonstrate eligibility through the Texas English Language Proficiency Assessment System (TELPAS). The Language Proficiency Assessment Committee (LPAC) will meet multiple times each year to review and consider the classroom and testing needs of all English Learners.

FWAFA strives to foster the linguistic and academic development, along with personal and social growth of the English learners in our learning community by focusing on reading, writing, listening, and speaking.

Required Home Language Survey

The home language survey will be administered to each student new to FWAFA, and students previously enrolled who were not surveyed in the past. If a response on the home language survey indicates that a language other than English is used, the student shall be tested to establish language proficiency.

State Identification Requirements

It is Texas policy that every student in the state who has a primary language other than English and who is identified as an English learner shall be provided a full opportunity to participate in a bilingual education or English as a Second Language (ESL) program, as required in the Texas Education Code (TEC), Chapter 29, Subchapter B.

The goal of bilingual education programs shall be to enable English learners to become proficient in listening, speaking, reading, and writing in the English language through the development of literacy and academic skills in the primary language and English. Such programs shall emphasize the mastery of English language skills, as well as mathematics, science, and social studies, as integral parts of the academic goals for all students to enable English learners to participate equitably in school.

The goal of ESL programs shall be to enable English learners to become proficient in listening, speaking, reading, and writing in the English language through the integrated use of second language acquisition methods. The ESL program shall emphasize the mastery of English language skills, as well as mathematics,

science, and social studies, as integral parts of the academic goals for all students to enable English learners to participate equitably in school.

English as a Second Language (ESL) Program

Statutory Requirements

Texas Administrative Code §89.1205 and 89.1210 requires that any school district that is not required to offer a bilingual education program to be provided an ESL program, regardless of the students' grade levels and home language, and regardless of the number of students. This program must:

- Use second language methods throughout the curriculum.
- Provide instruction that includes TEKS based academic content, as well as language development.
- Differentiate instruction of content according to language proficiency levels.
- Provides academic instruction that is on grade level.

The English as a Second Language program shall be implemented with consideration for each English Learners' unique readiness level through one of the following program models:

Content-Based Program Model

A content-based program model serves students identified as students of limited English proficiency in English only by providing a full-time teacher certified under TEC §29.061(c) to provide supplementary instruction for all content area instruction. The program integrates English-as-a-second-language instruction with subject matter instruction which focuses not only on learning a second language but using that language as a medium to learn mathematics, science, social studies, or other academic subjects.

Pull-Out Program Model

FWAFA primarily utilizes an English program that serves students identified as students of limited English proficiency in English only by providing a certified teacher under TEC §29.061(c) to provide English language arts instruction exclusively, while the student remains in a mainstream instructional arrangement in the remaining content areas. Instruction may be provided by the ESL teacher in a pull-out or inclusive delivery model.

Goals of the ESL Program

- Enable EBs to become proficient in listening, speaking, reading, and writing of English.
- Emphasize mastery of English language skills, as well as Math, Science, and Social Studies.
- Use instructional approaches designed to meet the needs of EBs.
- Be an integral part of the total school program.
- Utilize the essential knowledge and skills required by the state as the curriculum.

The school district shall seek certified teachers to ensure EBs are afforded full opportunity to master essential knowledge and skills and provide professional development.

TELPAS

TELPAS is an assessment program for students in Texas public schools who are learning the English language. FWAFA must annually assesses the English language proficiency of students who have been

identified as Emergent Bilingual (EB) in four language domains—listening, speaking, reading, and writing. TELPAS evaluates the progress that each EL makes in becoming proficient in the use of academic English.

Students in grades K-12 that have been identified as an EB are required to take TELPAS. This includes EBs whose parents have declined English as a Second Language (ESL) program services. They will stop participating in TELPAS when their language proficiency assessment committee (LPAC) determines that they are proficient in the English language and have met exit criteria. This applies to all EBs, even those who are not in an ESL program. Once a student has met the state's exit criteria, they will no longer be identified as an EB and will not have to participate in TELPAS.

Language Proficiency Assessment Committee (LPAC)

The Language Proficiency Assessment Committees (LPAC) meets multiple times throughout the year to officially enter or exit students into the campus ESL program and to create classroom and assessment accommodations on an individual student basis. The LPAC committee must:

- Designate the language proficiency level of each limited English proficient student in accordance with the state and federal guidelines
- Designate the level of academic achievement of each limited English proficient student
- Designate the initial instructional placement of each limited English proficient student in the campus program or note the parent/guardian denial of recommended services
- Facilitate the participation of limited English proficient students in other special programs for which they are eligible, such as Special Education, 504, GT, or RtI
- Classify students as English proficient in accordance with the state and federal criteria, and recommend their exit

Criteria to Exit

To exit from the FWAFA ESL program, a student may be classified as English proficient at the end of the school year in which a student would be able to participate equally in a regular, all-English, instructional program. The determination shall be based upon all of the following:

- TEA-approved tests that measure the extent to which the student has developed oral and written language proficiency and specific language skills in English
- Satisfactory performance on the approved reading assessment, or a TEA-approved English Language Arts assessment instrument administered in English, or a score at or above the 40th percentile on both the English Reading and the English Language Arts section of a TEA-approved norm-referenced assessment instrument for a student who is enrolled in Grade 1 or 2
- TEA-approved criterion-referenced written tests when available and the results of a subjective teacher evaluation

The LPAC will reevaluate a student who is transferred out of the ESL program during the first two years after the student is exited. If the student earns a failing grade in a subject during any grading period, the LPAC may meet to determine whether the student should be entered back in the ESL program.

Referrals for Evaluation

If a student is experiencing learning difficulties, his/her guardian may contact the school to learn about the school's overall general education referral or screening system for support services. A parent may request an evaluation for Special Education or Section 504 services at any time. If a parent makes a written request for an initial evaluation for special education services, the school must respond no later than 15 school days after receiving the request. At that time, the district or charter school must give the parent a prior written notice of

whether it agrees to or refuses to evaluate the student, along with a copy of the Notice of Procedural Safeguards. If the school district or charter school agrees to evaluate the student, it must also give the parent the opportunity to give written consent for the evaluation.

A request for a special education evaluation may be made verbally and does not need to be in writing. Districts and charter schools must still comply with all federal prior written notice and procedural safeguard requirements and the requirements for identifying, locating, and evaluating children who are suspected of being a child with a disability and in need of special education. However, a verbal request does not require the district or charter school to respond within the 15-school-day timeline.

If the district or charter school decides to evaluate the student, it must complete the student's initial evaluation and evaluation report no later than 45 school days from the day it receives a parent's written consent to evaluate the student. However, if the student is absent from school during the evaluation period for three or more school days, the evaluation period will be extended by the number of school days equal to the number of school days that the student is absent.

There is an exception to the 45-school-day timeline. If a district or charter school receives a parent's consent for the initial evaluation at least 35 but less than 45 school days before the last instructional day of the school year, it must complete the written report and provide a copy of the report to the parent by June 30 of that year. However, if the student is absent from school for three or more days during the evaluation period, the June 30th due date no longer applies. Instead, the general timeline of 45 school days plus extensions for absences of three or more days will apply. Upon completing the evaluation, the district or charter school must give the parent a copy of the evaluation report at no cost.

Additional information regarding special education is available in a companion document titled [Parent's Guide to the Admission, Review, and Dismissal Process](#).

Section 504

Section 504 covers qualified students with disabilities who attend schools receiving Federal financial assistance. To be protected under Section 504, a student must be determined to:

- have a physical or mental impairment that substantially limits one or more major life activities; or
- have a record of such an impairment; or
- be regarded as having such an impairment.

Section 504 requires that school districts provide a free appropriate public education (FAPE) to qualified students in their jurisdictions who have a physical or mental impairment that substantially limits one or more major life activities.

Consent for Evaluation

In order to evaluate a child for eligibility under Section 504, a parent/guardian/adult student must provide consent. This consent only allows for examination of data to determine INITIAL eligibility. Additional consent for re-evaluation is not necessary. Sometimes the parent is not present when Section 504 consideration is discussed and consent must be sent home for signatures.

Consent for Services

Following an INITIAL eligibility determination, the campus coordinator will need to collect a Consent for Services form from the parent/guardian/adult student. This form will only be collected once.

Revoking Consent

There may be situations in which a parent wants to revoke consent for certain services while maintaining eligibility under Section 504 for accommodations. For example, a parent may not want their child to receive Dyslexia services any longer. If this occurs, a Section 504 meeting should be held to discuss the parent request.

Initial Referrals

Referrals for Section 504 can be made by parents or staff. Examples of situations in which a student may meet eligibility as a student protected under Section 504:

- The student has a chronic health condition such as asthma, diabetes, epilepsy, etc.
- The student has a disability identified under IDEA, but does not qualify for special education
- The student has low vision, poor hearing, heart disease, or some other “hidden disability.”
- The student has been evaluated by an agency outside of school and the parents provide the report and recommendations.

The 504 Evaluation

The district must conduct an Evaluation before the initial provision of Section 504 services can be provided to the child with a disability. Consent from a parent or guardian must be obtained prior to an evaluation. Best practice dictates that the campus Counselor have this conversation with the parent and include any other campus personnel. If the campus Section 504 Coordinator is someone other than the campus Counselor, then he/she should be invited to the meeting with the parent as well. Evaluation under Section 504 does not necessarily mean a test or assessment. Rather, the evaluation consists of reviewing data from multiple sources and asking pertinent questions to determine eligibility. This process occurs within the context of a Section 504 meeting.

Timelines

The Office of Civil Rights encourages school districts to follow the evaluation timelines similar to those of special education. Evaluations (the INITIAL Section 504 meeting) must be completed within 45 school days of the receipt of Consent for Evaluation. If a student has excessive absences, this timeline can be extended. Best practice would dictate that, because formal evaluation is not required, the Section 504 evaluation should occur within a much shorter time frame. Re-evaluations should be conducted every 3 years. Extensive data collection should occur at this time to determine continued eligibility. Section 504 review meetings should occur annually.

Data to Collect and Consider in a Section 504 Evaluation

The following is a list of data examples to be reviewed in a Section 504 evaluation. This is not an exhaustive list as each evaluation is specific to the needs of the student. The Section 504 committee should consider:

- Parent and Teacher input
- Medical information from campus nurse and/or outside providers
- Academic information, including grades, progress monitoring data, universal screening data, state assessment data, etc.
- Behavioral information, including discipline reports, behavioral observations
- Outside evaluations

When collecting information from outside providers, the campus Section 504 coordinator will need to obtain additional consent for release of confidential information. The campus coordinator will possibly need to work alongside the campus nurse in obtaining and/or understanding the information obtained. If the information obtained is vague in nature, the campus Section 504 coordinator is expected to call the provider and ask clarifying questions.

Eligibility

In order to be considered eligible for Section 504 protections and supports, these questions must be answered:

- Does the student have a physical or mental impairment?
- Does the physical or mental impairment substantially limit one or more major life activities?
- Does the physical or mental impairment substantially limit a major life activity?

The Section 504 committee must answer “yes” to all of these questions and be able to explain the support necessary for the student to access all academic and extracurricular activities to the same extent as their peers. Federal law explains that a person eligible under Section 504 must have a disability, have a history of a disability, or be regarded as having a disability.

Also, the regulations stipulate that the disability must “substantially limit” one or more major life activities such as breathing, walking, seeing, reading, hearing, eating, running, concentrating, and/or learning. For a disability to be considered “substantially” limiting, it must create such a limitation without the application of mitigating measures that requires intervention so that the student has equal opportunity to access school-related activities without discrimination. “Substantially limits” should be considered without regard to the helpful effects of mitigating measures (ADHD medications, hearing aids, behavioral therapy, etc.), with the exceptions of ordinary glasses or contact lenses. If a medical or mental health provider indicates that the disability is “mild” in nature, then the child would not require any intentional interventions to prohibit discrimination. The impact must be classified as “moderate” to “severe” to be considered “substantial.”

There is not an exhaustive list of impairments nor a list of every possible life activity. The decision of eligibility is up to the Section 504 committee. Diabetic or ADHD students are the only exceptions to the questions because they are always found eligible for Section 504. Some students, however, may be eligible for Section 504 protections, but not require a Student Service Plan due to mitigating measures (i.e., medication) and/or remission (i.e., cancer patients).

Special Education

Special education is a program within the school which provides accommodations to address students’ needs, differences, and disabilities by utilizing specially designed instruction and related services to meet the unique needs of a child with a disability at no cost to the parent/guardian. There are federal and state guidelines which must be followed to determine a student’s eligibility for services. Consideration of a student’s need for special education services is initiated by a referral that may be made by the parents, a physician, a community agency, and/or school personnel. An ARD (Admission, Review, and Dismissal) Committee composed of administrators, teachers, parents, and others will meet to develop an Individual Education Plan (IEP) and determine placement.

Individuals with Disabilities Education Act (IDEA)

IDEA ensures that all students with disabilities receive a free and appropriate public education (FAPE) which will meet their needs and prepare them for their education, employment, and independent living. The six main principles of IDEA are FAPE, appropriate evaluation, individualized education plan (IEP), least restrictive environment (LRE), parent participation, and procedural safeguards. IDEA lists 13 disability categories:

- Specific Learning Disability (SLD) - these cover a student's ability to read, write, listen, speak, reason, or do math. Some examples are dyslexia, dyscalculia, written expression disorder (also referred to as dysgraphia)
- Other Health Impairment (OHI) - these limit a student's strength, energy, or alertness. ADHD, which impacts attention and executive function, is an example.
- Autism Spectrum Disorder (ASD) - this is a developmental disability, mainly affecting social and communication skills.
- Emotional Disturbance - (ED) - A number of mental health issues fall in this category, such as anxiety disorder, schizophrenia, bipolar disorder, obsessive-compulsive disorder, and depression. They are, at times, covered under OHI.
- Speech or Language Impairment - This covers speech or language difficulties as well as students who have difficulty understanding words or expressing themselves.
- Visual Impairment, including Blindness - Visual Impairment must be determined by a licensed ophthalmologist or optometrist. If eyewear is able to correct the vision problem, then it does not qualify.
- Deafness - This includes students who can't hear all or most sounds even with a hearing aid.
- Hearing Impairment - This includes hearing loss that is not covered under the "Deafness" category. This type of loss can change over time.
- Deaf-Blindness - This includes students with both severe hearing loss and vision loss, making their communication and needs unique.
- Orthopedic Impairment - Students are included when they lack function or ability in their bodies. Cerebral palsy is an example.
- Intellectual Disability - This category includes students with below-average intellectual ability, who may also have poor self-care, communication, and social skills. Down syndrome is an example.
- Traumatic Brain Injury - This is an injury which was caused by an accident or physical force.
- Multiple Disabilities - This category includes students who have more than one condition which is covered by IDEA.

Admission, Review, Dismissal Meeting (ARD)

The admission, review, and dismissal (ARD) committee is the team that meets to determine eligibility based on a full and individual evaluation report, and to develop an individualized education program (IEP) for the child. The ARD committee must meet annually but may meet more often as needed. The ARD Committee must include the following members:

- Parent/Guardian
- Child (when appropriate)
- Regular Education Teacher
- Special Education Teacher
- School Administrator/Representative
- Someone who can interpret evaluation results (if applicable)

Individualized Education Plan (IEP)

An Individualized Education Plan is a legal document developed for each student who enters into the special education program. It is created by a team including the SPED teacher, general education teacher(s), the parent/guardian, and campus administrator. Other people who may contribute as needed include the speech teacher, occupational therapist, and the diagnostician who administered or interpreted tests. The IEP dictates what is needed to improve the educational situation for the student, and it ensures that the student's educational needs will be met in all areas of need. An IEP moves from school to school with a student and

must be updated yearly. The IEP must be reviewed at least once annually, but may be addressed by the ARD committee more than once a year if needed.

Preparing an IEP

The following procedures should be followed before presenting an IEP in the ARD meeting:

- Receive consent for testing (initial evaluations only)
- If needed, dyslexia tests given
- If needed, test results summarized and sent to diagnostician
- Completed results received from testing or from family and previous school
- Meeting scheduled and email invitation sent to family & all committee members
- Prior Written Notice (PWN) sent
- Procedural Safeguards sent
- ARD Guide sent
- Receive PLAAPF input from academic teachers
- School nurse complete vision screening and hearing test
- Finish preparation of IEP
- Set up Google Meet & include digital signatures in online program if needed
- During/after meeting, make discussed changes to IEP
- If needed, contact Speech and/or OT contractors
- After meeting, finalize IEP
- After meeting, send finalized IEP paperwork to teachers, Principal, Counselor, Instructional Specialist, and service providers
- Add summary and goal papers to MTSS binder.
- Update student minutes on MTSS schedule
- Update accommodation survey and teacher/student lists
- Send information to counselor for coding
- Place all paperwork in red student SPED folder and file in SPED cabinet

Present Levels of Academic and Functional Performance (PLAAFP)

PLAAFPs are a major component of a student's Individualized Education Plan. They describe a student's current strengths and weaknesses and are a basis for writing student goals. PLAAFPs include how a student's disability affects their educational progress.

Inclusion and Resource

During inclusion, a member of the special populations team will work with students in their general education classroom, using the work provided by the classroom teacher. During resource, the student goes to a different instructional area to work on the subject in which they need assistance. This work may be provided by the classroom teacher, special education teacher, dyslexia teacher, or combination.

Accommodations and Modifications

An accommodation changes how a student learns the material; for example, the student may listen to an audio version of the same book the rest of the class is reading. A modification changes what the student is expected to learn, such as receiving an easier reading passage than the rest of the class.

Behavior Plan (BIP)

This document specifically addresses the behavioral plan for a student whose behavior interferes with their own learning or the learning of others. It is created along with the IEP, and it must include positive behavioral intervention strategies. There must be a functional behavior assessment completed prior to developing a BIP. This process may take several weeks, as multiple sources of data are required.

Special Education Progress Reports

Each student in Special Education will receive a progress report of their IEP goals at the end of each grading cycle. Notes are added to the online progress monitoring program weekly and are based on the work students complete during inclusion or resource. The progress report gives specific data about the student's goals and is to be used in conjunction with their regular report card.

Special Education and/or Dyslexia Teacher

Special Education and/or Dyslexia Teachers provide individual and small group opportunities to students in need of additional instruction in specific areas through Special Education. Special Education and/or Dyslexia Teachers will create individualized lesson plans based on each student's current levels and goals. They will also work collaboratively with all students' classroom teachers to ensure alignment to the Texas Essential Knowledge and Skills (TEKS) and classroom activities.

Special Education and/or Intervention Aide

Special Education and Intervention Aides provide individual and small group attention to students in need of extra assistance and support through Special Education. Aides also provides support for teachers by helping with classroom activities and monitoring students. Aides work under the general supervision of the Principal and immediate direction of the certified teacher of the student(s) needing services.

Diagnostician

A Diagnostician is a Texas-approved licensed evaluator of students with special needs. The diagnostician is the leader in identifying needs of students and serves on the ARD committee to develop an IEP. The diagnostician may also set meeting schedules with parents and staff, and coordinate student services.

Speech Pathologist

A Speech Pathologist is a Texas-approved licensed professional trained in diagnosing speech deficits and remediating those areas of concerns. The Speech Pathologist may work with students individually, in small groups, or in the classroom.

Occupational Therapist

An Occupational Therapist is a Texas-approved licensed professional providing support for improving the physical, cognitive, psychosocial, and sensory components of performing tasks needed for independent functioning in the academic setting. Educational occupational therapy primarily focuses on academics, play and leisure, social participation, self-care skills, and transition/work skills.

Differences Between Special Education IEPs and Federal 504 Plans

	IEP	504 Plan
Basic Description	A blueprint or plan for a child's special education experience at school.	A blueprint or plan for how the school will provide support and remove barriers for a student with a disability.
What It Does	Provides individualized special education and related services to	Provides services and changes to the learning environment to

	<p>meet a child's unique needs. These services are provided at no cost to families.</p>	<p>enable students to learn alongside their peers. As with an IEP, a 504 plan is provided at no cost to families.</p>
What Law Applies	<p>The Individuals with Disabilities Education Act (IDEA) This is a federal special education law for children with disabilities.</p>	<p>Section 504 of the Rehabilitation Act of 1973 This is a federal civil rights law to stop discrimination against people with disabilities.</p>
Who's Eligible	<ul style="list-style-type: none"> • A child has one or more of the 13 disabilities listed in IDEA. The law lists specific challenges, like learning disabilities, ADHD, autism, and others. • The disability must affect the child's educational performance and/or ability to learn and benefit from the general education curriculum. The child must need specialized instruction to make progress in school. 	<ul style="list-style-type: none"> • A child has any disability. Section 504 covers a wide range of different struggles in school. • The disability must interfere with the child's ability to learn in a general education classroom. <p>Section 504 has a broader definition of a disability than IDEA. (It says a disability must substantially limit one or more basic life activities. This can include learning, reading, communicating, and thinking.) That's why a child who doesn't qualify for an IEP might still be able to get a 504 plan.</p>
Independent Educational Evaluation	<p>Families can ask the school district to pay for an independent educational evaluation (IEE) by an outside expert. The district doesn't have to agree.</p> <p>*In Texas this is frequently referred to as an FIE (Full Independent Evaluation).</p>	<p>Doesn't allow families to ask for an IEE. As with an IEP evaluation, families can always pay for an outside evaluation themselves.</p>
Who Creates It	<p>There are strict legal requirements about who participates. An IEP is created by an ARD Committee that must include:</p> <ul style="list-style-type: none"> • The child's parent or caregiver • At least one of the child's general education teachers • At least one special education teacher • School psychologist or other specialist who can interpret evaluation results 	<p>The rules about who is on the 504 team are less specific than they are for an IEP. A 504 plan is created by a team of people who are familiar with the child and who understand the evaluation data and special services options. This might include:</p> <ul style="list-style-type: none"> • The child's parent or caregiver • General and special education teachers

	<ul style="list-style-type: none"> • A district representative with authority over special education services <p>With a few exceptions, the entire team must be present for meetings.</p>	<ul style="list-style-type: none"> • The school principal or designee
What's in It	<p>The IEP sets learning goals and describes the services the school will provide. It's a written document.</p> <p>Here are some of the most important things the IEP must include:</p> <ul style="list-style-type: none"> • The child's present levels of academic and functional performance—how the child is currently doing in school • Annual educational goals for the child and how the school will track progress • The services the child will get—this may include special education, related, supplementary, and extended school year services • The timing of services—when they start, how often they occur, and how long they last • Any accommodations—changes to the child's learning environment • Any modifications—changes to what the child is expected to learn or know • How the child will participate in standardized tests • How the child will be included in general education classes and school activities 	<p>There is no standard 504 plan. Unlike an IEP, a 504 plan doesn't have to be a written document.</p> <p>A 504 plan generally includes the following:</p> <ul style="list-style-type: none"> • Specific accommodations, supports, or services for the child • Names of who will provide each service • Name of the person responsible for ensuring the plan is implemented
Notice	When the school wants to change a child's services or placement, it has to tell families in writing before the change. This is called prior	The school must notify families about an evaluation or a "significant change" in placement. Notice doesn't have to be in

	written notice. Notice is also required for any IEP meetings and evaluations. Families also have rights to keep services in place while there's a disagreement about the IEP.	writing, but most schools do so anyway.
Consent	A parent or caregiver must consent in writing for the school to evaluate a child. They must also consent in writing before the school can provide the services in an IEP.	A parent or caregiver's consent is required for the school district to evaluate a child.
How Often It's Reviewed and Revised	The IEP team must review the IEP at least once a year. The child must be reevaluated every three years to determine whether services are still needed.	The rules vary by state. Generally, a 504 plan is reviewed each year, and a reevaluation is done every three years or when needed.
When are families notified about changes?	The school has to tell families in writing before the IEP team meets or makes any changes to the IEP.	The school has to tell families about a "significant change" to the 504 plan. Many schools send written notifications.
How are disputes resolved?	Families with IEPs have several dispute resolution options , ranging from talking with the school all the way up to filing a lawsuit or civil rights complaint.	Families with 504 plans have similar options. Learn about ways to resolve 504 plan disputes with the school.

Dyslexia

Purpose

Texas has a long history of supporting the fundamental skill of reading. This history includes a focus on early identification and intervention for students with dyslexia. This page includes resources to assist in identifying and providing services for students with dyslexia and related disorders in Texas schools. In addition to this page, information is available through the [State Dyslexia Coordinator](#), [ESC Dyslexia Network Coordinator](#), the [dyslexia contacts](#) at each of the 20 regional education service centers and the helpline. We welcome any suggestions you may have that will improve this page.

Dyslexia Handbook

The Texas Dyslexia Handbook is developed and adopted into administrative rule by the Texas State Board of Education (SBOE). The SBOE requires that each district and open-enrollment charter school implement the SBOE's strategies for screening, individualized evaluation, and techniques for treating dyslexia and related disorders through its approved "Dyslexia Handbook: Procedures Concerning Dyslexia and Related Disorders" [[19 Texas Administrative Code 74.28](#)]

In effect as of June 30, 2024. At the April 12, 2024 State Board of Education (SBOE) meeting, the SBOE approved for second reading and final adoption changes to 19 Texas Administrative Code (TAC) 74.28. Included as a figure in 19 TAC 74.28 is the SBOE's Dyslexia Handbook. The rule was filed in the Texas Register on June 1, which makes the rule and handbook effective on June 30, 2024.
